FOR IMMEDIATE RELEASE

URADICS launches new ASP.NET & Google SEO Certification Marketing Training Course

URADICS is very happy to announce the launch of 2 new super-special training course catering to different segment altogether. The ASP.NET Training Course is a short-term 1 month course and will be offered as classroom-based only from our institute in Ahmedabad. The course is highly advanced covering intricate details about the ASP.NET technology and we wish that it will be a huge success with our students.

Our second super-special Google SEO Certification Marketing Training Course is highly advanced and is only available to existing SEO professionals. The course has been designed in such a way that it gives existing professionals an extremely deep understanding of the subject, with extreme complexity and is so diverse that after the completion of this course an individual will have the ability to optimize virtually anything. This course is offered as Online and Classroom-based and is offered globally, and we believe it will have a huge acceptance with SEO Professionals.

Internet is growing at a very fast pace and millions of pages are being added to the web daily. Most of the applications today are web-based and legacy applications are being converted to support online functions. Over the years search engines have emerged as one of the leading medium for information sharing and we do see them in this strong position for a long time. There is a huge shortage of highly skilled and motivated individuals in this industry and thus we believe these courses do have a huge market.

"It gives me immense pleasure to announce the launch of 2 new courses to our offerings in the IT Training space. Both these courses are unique as they offer extreme diversity and support our objective of offering employment focused courses. We hope that with these courses, we will be able to command a greater market share in SEO and ASP.NET training space and at the same time, will enable individuals to get a deeper understanding of the subject and help get them get employment to the career of their choice." says Pulkit Agrawal, Director, URADICS.
